

Have **vacuum** interrupters that are causing you problems?

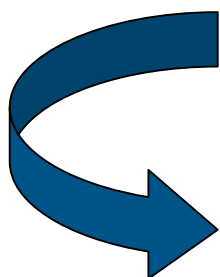

Southern States has the solution—replacement of the vacuum interrupters with the **LLS-II Load and Line Switcher**, the single gap per phase SF₆ gas full load break/loop break/line drop interrupter which **effectively obsoletes vacuum interrupters** for 72.5 kV through 242 kV applications and can be installed on **virtually any manufacturer's vertical break switch**.

Turn This

Into This

Make the switch from vacuum interrupters to the LLS-II today—you'll be glad you did now and for years to come.
